

# ON THE FRONT LINES: THE STATE OF BEHAVIORAL, PHYSICAL, AND EMERGENCY CARE IN BUCKS & MONTGOMERY COUNTIES

Across Bucks and Montgomery Counties, our healthcare system is being reshaped by policy decisions, workforce challenges, financial pressures, and rising needs.

This session will offer a big-picture look at the current state of care in our region, highlighting how hospitals, emergency medical services, primary care, and behavioral health providers are evolving in response.

Join this conversation to understand key trends, anticipate emerging challenges, and identify opportunities to partner in building a more coordinated, resilient system of care for the communities you serve.
